The conference will take place in University of Oxford Conference Center، the most famous University in England.

Meeting hall will be equipped with the projector and computer، so that participants could make PowerPoint presentations.

Topics of the conferece:

Energy efficiency
Building technologies
Ecological impacts of materials
Bioclimatic design
Water quality
Green facades
Ecological and cultural sensitivity
Design by passive systems
Adapted reuse
Life cycle assessment and durability
Transformative design
Sustainability indices in architecture
Global environmental change and ecosystems management
Climate and climatic changes
Global warming
Ozone layer depletion
Carbon capture and storage
Biofuels
Integrated ecosystems management
Environmental restoration and ecological engineering
Global environmental change and ecosystems management
Climate and Biodiversity conservation
Wetlands
Landscape degradation and restoration
Ground water remediation
Soil decontamination
Eco-technology
Bio-engineering
Environmental sustainability
Resource management
Life cycle analysis
Environmental systems approach
Renewable sources of energy-energy savings
Clean technologies
Sustainable cities
Hazardous substances and detection techniques

Biodegradation of hazardous substances
Toxicity assessment and epidemiological studies
Quality guidelines، environmental regulation and monitoring
Anaerobic treatment
Industrial wastewater treatment
Advances in biological، physical and chemical processes
On site and small scale systems
Storm-water management
Air pollution and control
Interaction between pollutants
Control technologies
Air emission trading
Solid waste management
Legal، economic and managerial aspects of solid waste management
